

# Synopsis

What if Shakespeare had lied to us... Verone around 1500... The city is ravaged by the pitiless fight between Lords Montague and Capulet, two bloodthirsty tyrants who torture as easily as you would itch your elbow.

But it's their offspring who quickly become the talk of the town... Juliette Capulet, a rather offset young woman with pitiful parents, dreams of true love and clearer skies. And destiny, always ready to play a trick, brings her to meet Romeo Montague, a vain and 'hairy' being, the son of Dad's archenemy.

From this love, which looks like a bad joke, will emerge all kinds of catastrophes, misunderstandings, and unexpected twists!

Immediate boarding for the most famous and incredible love story in the world, revisited in a light-hearted and crazy manner as a jubilant game of massacre!

## AUTHOR'S COMMENT

What would Romeo & Juliette look like if all of the characters were laden with the neurosis of modern times? That is the premise of this offset farce.

Driven by their vampire egos and their character defects, Romeo and Juliette are at times predators and at other times victims, thus creating a comic situation allowing the audience to "live" the tale through identification, and to become fully actors.

Our other shows :

**Nat-Ure** : a fantastic, initiatory tale for young and old, where theater, video, visual effects, dance, puppets and song join together. All done with a good sense of humor.

**Tell me about love** : a light-hearted sentimental comedy, both poetic and interactive. What to do when you're sad because you've lost your loved one... in a former lifetime?

## AN EXHILARATING GAME OF MASSACRE

**TTT** This disrespectful version brings into play offset characters, resembling the universe of the Kaamelott series, more than Shakespearian tragedies. The text, performance, set, costumes – nothing here is left to chance.t
